PPSC Computer Science Topic 10 Programming Language

Sr	Questions	Answers Choice
1	Electronic spreadsheets are most useful in situating where relatively .....data must be input but...calculations are required.	A. little, simple B. large, simple C. large , complex D. little, complex
2	Sequential file organization is most appropriate for which of following application.	A. grocery store cheackout B. Bank checking account C. Pay roll D. None
3	One dis advantage of a direct access file is.	A. The delay in computing the storage address. B. Duplication of address locations C. Unsued, but available, storage locations. D. All of above
4	Which of the following is not characteristic of COBOL	A. It is a very standardized language B. It is very efficient in terms of coding and execution C. It has limited facilities for mathematical notation D. It is very readable language
5	The two basic types of record access methods are	A. Sequential and random B. Direct and immediate C. Sequential and indexed D. None
6	One disadvantage of a direct access file is.	A. The delay in commuting the storage address B. Duplication of address locations C. Unused but available storage locations D. All of above
7	In a COBOL program the input output section is within the .....division	A. Indentification B. Procedure C. Configuration D. Environment
8	Which of the following is not one of the process that a high level language program must go through before it is ready to be executed.	A. Transition B. controlling C. Lading D. Linking
9	Which of the following is not characteristics of COBOL	A. It is a very standardized langauge. B. It is a very efficient in terms of coding and execution C. It has limited facilities for mathematical notation D. It is very readable langage
10	Which of the following generations of language will likely include the language of the feature.	A. First generation B. Second generation or third generation C. Fourth generation D. Fifth generation
11	All of the following are dis advantage of RPG except.	A. It is a very machine dependent langauge. B. It is very limited in scope C. Is not suited for complex problems rearing extensive programming logic D. All of the above are dis advantages
12	Which of the following is not one of the process that a high level language program must go through before it ready to be executed.	A. Translation B. Controlling C. lading D. Linking
13	In the evaluation of a computer language al of the following characteristics should be considered except.	A. Application oriented features B. Efficiency C. Readability

		D. Hardware maintenance costs
14	Which of the following file organization is most efficient for a file with a hinge degree of file activity.	A. Sequential B. ISAM C. VSAM D. B-Tree
15	In BASIC description comments are put in the source program with the	A. PRINT statement B. REMARK statement C. INPUT statement D. DATA statement
16	A factor in the selection of a source language is.	A. Programmer skill B. Language availability C. Program compatibility with other software D. All of above
17	Which file organization is allowed try a direct access storage device.	A. Direct only B. Sequential and direct only C. Indexed and direct only D. Sequential indexed and direct
18	In the evaluation of computer language all of the following characteristics should be considered except.	A. Application oriented features B. Efficiency C. Readability D. Hardware maintenance costs
19	Which file organization is allowed by a direct access storage derive.	A. Direct only B. Sequential and direct only C. Indexed and direct only D. Sequential, indexed an direct
20	Which of the following is not true of FORTRAON.	A. It was developed for scientific and mathematical application B. It is one of the oldest high level languages C. It is a problem oriented language D. All of above
